1. What does this program do?

Through a combination of state-operated, interagency agreement and outsource services, the Department provides qualified educators to conduct institution-based education programs for offenders. Incarcerated offenders without a verified high school graduation diploma or General Education Development (GED) Certificate are required to enroll in academic education. The Department continuously assesses the educational needs of inmates from intake through release to the community. Contracts for post-secondary educational opportunities are available for youthful offenders at the correctional centers in Boonville, Moberly, St. Joseph and Vandalia through the use of federal grant funds. Libraries at every correctional institution enhance academic education and serve the informational needs of offenders, including constitutionally mandated "access to courts" through legal resources, reference and self-improvement materials. Offenders who have obtained a high school diploma or equivalent may apply for admission to post-secondary work related skills training. The Department provides continuity in education by offering training that prepares offenders for employment after release and connects offender training to interview and placement in department job assignments in Missouri Vocational Enterprises industries and institutional jobs.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 217.355 RSMo., Public Law 94-142 (federal), Title I, II, IV and V, Title II-Work Force Investment Act/Adult Education and Literacy, Supreme Court decisions regarding offender libraries (federal)

3. Are there federal matching requirements? If yes, please explain.

No there are no matching requirements, however the federal government does require "maintenance of effort" which means that the state must spend at least as much on education each year as in the previous year.

4. Is this a federally mandated program? If yes, please explain.

Federal Supreme Court decisions require the provision of "access to courts" through the provision of legal resources, reference material provided in the offender libraries and self-improvement materials. Offenders under age 22 who are not high school graduates must receive education services while incarcerated.

2. CORE DESCRIPTION

This decision item represents core funding for constitutionally and statutorily mandated health services (medical, mental health and sex offender services) for incarcerated offenders in 21 correctional facilities. The DOC utilizes these funds to maintain and improve the health of incarcerated offenders, to assist in control and containment of infectious and chronic diseases, to improve the health of offenders with chronic mental illness, to reduce the number of sexual assault victims within the offender community and to ensure that offenders are constitutionally confined. The current comprehensive contract for offender health services became effective July 1, 2007.

This program provides constitutionally and statutorily mandated health services (medical, mental health and sex offender services) for incarcerated offenders in 21 correctional facilities. The Department does not provide offender health care services at the two community release centers. The DOC is responsible to maintain and improve the health of incarcerated offenders, to assist in control and containment of infectious and chronic diseases, to improve the health of offenders with chronic mental illness and to ensure that offenders are constitutionally confined. The Department is also mandated to operate a program of treatment, education and rehabilitation for sexual assault offenders. By policy, the successful completion of the Missouri Sex Offender Program (MOSOP) is mandatory for release prior to an offender's sentence completion date. The MOSOP program, 14-18 months of therapy, is provided at the Farmington Correctional Center for males and the Women's Eastern Reception and Diagnostic Correctional Center in Vandalia for females. It is also provided at Eastern Reception and Diagnostic Correctional Center (ERDCC) at Bonne Terre for male offenders with physical handicaps or who require protective custody.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Inmate health care is mandated by the 8th and the 14th Amendments of the US Constitution and Chapter 217.230 and 589.040 RSMo.

This request for additional contracted inmate health care services funding is needed because of an increase in the contract rate and an increase in the offender population. Medical costs increased from \$9.36 per offender per day to \$9.80 per offender per day. Mental health costs have increased from \$2.27 per offender per day to \$2.31 per offender per day, for a total cost for FY11 of \$12.11 per offender per day. The prison population is estimated to increase from 30,698 in FY10 to 31,140 in FY11.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department of Corrections contracts for inmate health care services. In FY11 the contract rate will increase from \$11.63 to \$12.11 per offender per day. In addition, the offender population will increase by 442 per day, resulting in additional costs.

FY10 Offender Health Care Budget	FY11 Per Day Rate	FY11 Projected	FY11 Need	Difference
\$129,859,956	\$12.16	31,140	\$138,211,776	\$8,351,820

The Governor recommended a decrease in this decision item in the amount of \$568,305 due to contract changes resulting in a \$.05 reduction in the mental health services per offender per day rate.

2. CORE DESCRIPTION

This request is to provide funds to purchase healthcare equipment for 21 correctional facilities. These funds are used to repair or replace inoperable or obsolete equipment as per the offender healthcare contract. Effective use of these funds decreases offender out-counts by allowing more services to be provided inside correctional facilities. This in turn promotes public safety and allows the Department to utilize security staff more efficiently.

NOTES:

FY07:

The FY07 appropriation was increased by \$1,055,674 in a core reallocation from the Population Growth Pool. These funds were a General Revenue pickup for federal substance abuse treatment funds. The FY07 lapse was due in large part to vacancies.

FY08:

The FY08 General Revenue appropriation lapse was partially due to the fact that the Department received \$800,000 to increase substance abuse services at Maryville Treatment Center and the contract was not let until the spring of 2008. Staff vacancies also contributed to the FY08 lapse.

1. What does this program do?

The Department conducts a program of random and targeted substance abuse testing of offenders. This testing allows for early intervention when an offender engages in substance abuse. In order to provide substance abuse testing in a timely and efficient manner, the Department operates its own Toxicology Laboratory at the Cremer Therapeutic Correctional Center in Fulton. Testing is scheduled so that 5% of the offender population is randomly tested for substance abuse through urinalysis monthly. Also, 5% of incarcerated offender population whom staff suspect use, due to searches or observations or work release programs, are target tested for substance abuse through urinalysis. The Toxicology lab normally provides results within 24 hours of receiving samples. In addition to testing offenders, the Department also provides pre-employment and random and targeted testing of the agency employees to ensure that the Department meets its commitment to public safety.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 217.020 RSMo.

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

Drug testing is not mandated by federal statute but it is a requirement for the application for most of the federal funds the Department receives.

2. CORE DESCRIPTION

Through a combination of state-operated, interagency agreement and outsource services, the Department provides qualified educators to conduct institution-based education and vocational programs for offenders. Incarcerated offenders without a verified high school graduation diploma or General Education Development (GED) Certificate are required to enroll in academic education. The Department continuously assesses the educational needs of offenders from intake through release to the community. Contracts for post-secondary educational opportunities are available for youthful offenders at various correctional centers through the use of federal grant funds. Libraries at every correctional institution enhance academic education and serve the informational needs of offenders, including constitutionally mandated "access to courts" through legal resources, reference and self-improvement materials. Offenders who have obtained a high school diploma or equivalent may apply for admission to post-secondary work-related skills training. The Department provides continuity in education by offering training that prepares offenders for employment after release and connects offender training to interview and placement in department job assignments in Missouri Vocational Enterprises industries and institutional jobs.

1. What does this program do?

Through a combination of state-operated, interagency agreement and outsource services, the Department provides qualified educators to conduct institution-based education programs for offenders. Incarcerated offenders without a verified high school graduation diploma or General Education Development (GED) Certificate are required to enroll in academic education. The Department continuously assesses the educational needs of inmates from intake through release to the community. Contracts for post-secondary educational opportunities are available for youthful offenders at the correctional centers in Boonville, Moberly, St. Joseph and Vandalia through the use of federal grant funds. Libraries at every correctional institution enhance academic education and serve the informational needs of offenders, including constitutionally mandated "access to courts" through legal resources, reference and self-improvement materials. Offenders who have obtained a high school diploma or equivalent may apply for admission to post-secondary work related skills training. The Department provides continuity in education by offering training that prepares offenders for employment after release and connects offender training to interview and placement in department job assignments in Missouri Vocational Enterprises industries and institutional jobs.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 217.355 RSMo., Public Law 94-142 (federal), Title I, II, IV and V, Title II-Work Force Investment Act/Adult Education and Literacy, Supreme Court decisions regarding offender libraries (federal)

3. Are there federal matching requirements? If yes, please explain.

No there are no matching requirements, however the federal government does require "maintenance of effort" which means that the state must spend at least as much on education each year as in the previous year.

4. Is this a federally mandated program? If yes, please explain.

Federal Supreme Court decisions require the provision of "access to courts" through the provision of legal resources, reference material provided in the offender libraries and self-improvement materials. Offenders under age 22 who are not high school graduates must receive education services while incarcerated.

2. CORE DESCRIPTION

This is a request for authority to spend from the Working Capital Revolving Fund to continue the operations of Missouri Vocational Enterprises (MVE) factories and services. The MVE program operates industries and programs to produce a variety of products and services for state agencies, city and county governments, political subdivisions, state employees and not-for-profit organizations. The goal of this program is to increase employment and training opportunities for offenders assigned to correctional centers to promote productive and law-abiding conduct after release to the community. MVE has 50 job titles registered with the U.S. Department of Labor that coincide with the Department of Labor Apprenticeship Programs; 472 offenders have completed apprenticeship programs and there are 353 active offenders working on their apprenticeship programs. Apprenticeship programs are nationally recognized by a multitude of employers and provide a gateway to employment upon release. Currently, 27 industries are operated in 15 correctional centers statewide. These industries employ approximately 1,620 offenders each month. Products and services include Chemical Products, Industrial Laundry, Clothing Factory, Furniture Factory, Graphic Arts, Engraving License Plate Factory, Office Systems manufacturing and installation, Shoe Factory, Tire Recycling, Forms Printing, Warehouse/Distribution network, Plastic Bags manufacturing, Cardboard Carton manufacturing, Toilet Paper manufacturing, Metal Products, Signs and Toner Cartridge Recycling.

The Missouri Vocational Enterprises program operates industries and programs to produce a variety of products and services for state agencies, city and county governments, political subdivisions, state employees and not-for-profit organizations. The goal of this program is to increase employment and training opportunities for offenders assigned to correctional centers to promote productive and law-abiding conduct after release to the community. MVE has 1,167 offenders registered with the U.S. Department of Labor in Apprenticeship Programs; 296 offenders have completed these programs and there are 517 active offenders working on their apprenticeship programs. Apprenticeship programs are nationally recognized by a multitude of employers and provide a gateway to employment upon release. Currently, 27 industries are operated in 15 correctional centers statewide. These industries employ approximately 1,500 offenders each month. Products and services include chemical products, industrial laundry, clothing factory, furniture factory, graphic arts, engraving license plate factory, office systems manufacturing and installation, shoe factory, tire recycling, forms printing, warehouse/distribution network, plastic bags manufacturing, cardboard carton manufacturing, toilet paper manufacturing, metal products, signs, and toner cartridge recycling.

2. CORE DESCRIPTION

Missouri Vocational Enterprises requires legislative authority to expend funds from the Working Capital Revolving Fund. This request will authorize expenditures in support of the Prison Industries Enhancement (PIE) program. This program, as per Chapter 217.567 RSMo, authorizes the Department of Corrections, Missouri Vocational Enterprises, to enter into contracts with private industries to increase offender labor assignments for manufacturing or service operations. These contracts shall not displace civilian workers and must have the approval of the Missouri Vocational Enterprises Advisory Board and the Joint Committee on Corrections.

In FY95-FY97, Missouri Vocational Enterprises supported a "cottage" industry at the Moberly and Chillicothe Correctional Centers producing specialty-fishing lures under this cooperative arrangement with a private provider. The lures were produced at the Moberly facility and finish painted by hand at the Chillicothe Correctional Center. While in operation, this program employed 80 offenders.

At present there are no active contracts, however this authority to spend will allow Missouri Vocational Enterprises to use non-general revenue funds to establish the necessary support systems should such an opportunity arise during the fiscal year.

1. What does this program do?

As of June 30, 2009 there were 73,175 offenders under the supervision of the Division. The caseload supervision level distribution was 25.62% Intensive/Enhanced Supervision, 40.29% Regular Supervision, 31.92% Minimum Supervision and 2.18% Absconders. It is significant to note that the number of misdemeanor offenders under supervision again decreased by 106 from 1,357 cases in June 30, 2008 to 1,251 on June 30, 2009. At the same time the number of felony probationers increased by 1,335 and the number of Parole Board cases increased by 178. Current projections indicate the total number of cases served during the year increased by 2,635 offenders to 111,621 offenders in FY09 and is projected to increase to 114,256 in FY10.

To address the growing caseloads, the Division has focused on public safety, implementing alternative case management strategies that have maintained the enhanced levels of staff contact with higher-risk offenders, while reducing collateral duties and services associated with the supervision of lower-risk offenders. While these strategies were largely successful in redirecting internal resources during this period, the further reduction in supervision services will jeopardize public safety.

The Board undertook several significant initiatives, using updated risk assessment data developed by the Department's Research and Evaluation Unit on factors closely associated with success/failure under supervision. The emphasis of these initiatives is to review release decisions on cases where the updated assessments were not available at the time of the original hearing. Where the new data suggests that the offender's risk of reoffending could be mitigated by an alternative release strategy the Board can establish a new release date. The increase in institutional release activity has increased the workload on institutional parole offices as well as in the community.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 217.705 and Chapter 558 RSMo.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

2. CORE DESCRIPTION

This core provides personal services funding for the St. Louis Community Release Center, a 550-bed community-based facility that assists male and female offenders with re-integration to the community from prison or stabilization while remaining assigned under community supervision. The St. Louis Community Release Center provides the Department with critical transitional services for offenders supervised in the metropolitan St. Louis area. The Parole Board stipulates offenders for assignment to the center based on their need for a more structured supervision/assistance. The center also serves as a secure location to assess offenders under Parole Board supervision in St. Louis City who are at risk for revocation. Pending a determination to retain the offender under supervision, implement an alternate community supervision plan or return for formal revocation hearings, the offender's risk to abscond or re-offend is mitigated by temporary confinement at the center. The facility may also be used as a more intense supervision strategy for probationers at risk for revocation by the Courts.

2. CORE DESCRIPTION

This core provides personal services funding for the Kansas City Community Release Center, a 350-bed community-based facility that assists male and female offenders with re-integration to the community from prison or stabilization while remaining assigned under community supervision. The Kansas City Community Release Center provides the Department with critical transitional services for offenders supervised in the metropolitan Kansas City area. The Parole Board stipulates offenders for assignment to the center based on their need for substance abuse treatment or more structured supervision/assistance. The center also serves as a secure location to assess offenders under Parole Board supervision in Jackson County who are at risk for revocation. Pending a determination to retain the offender under supervision, implement an alternate community supervision plan or return for formal revocation hearings, the offender's risk to abscond or re-offend is mitigated by temporary confinement at the center. The facility may also be used as a more intense supervision strategy for probationers at risk for revocation by the Courts and for offenders who are awaiting approval of an out of state home plan.

1. What does this program do?

As of June 30, 2009 there were 73,175 offenders under the supervision of the Division. The caseload supervision level distribution was 25.62% Intensive/Enhanced Supervision, 40.29% Regular Supervision, 31.92% Minimum Supervision and 2.18% Absconders. It is significant to note that the number of misdemeanor offenders under supervision again decreased by 106 from 1,357 cases in June 30, 2008 to 1,251 on June 30, 2009. At the same time the number of felony probationers increased by 1,335 and the number of Parole Board cases increased by 178. Current projections indicate the total number of cases served during the year increased by 2,635 offenders to 111,621 offenders in FY09 and is projected to increase to 114,256 in FY10.

To address the growing caseloads, the Division has focused on public safety, implementing alternative case management strategies that have maintained the enhanced levels of staff contact with higher-risk offenders, while reducing collateral duties and services associated with the supervision of lower-risk offenders. While these strategies were largely successful in redirecting internal resources during this period, the further reduction in supervision services will jeopardize public safety.

The Board undertook several significant initiatives, using updated risk assessment data developed by the Department's Research and Evaluation Unit on factors closely associated with success/failure under supervision. The emphasis of these initiatives is to review release decisions on cases where the updated assessments were not available at the time of the original hearing. Where the new data suggests that the offender's risk of reoffending could be mitigated by an alternative release strategy the Board can establish a new release date. The increase in institutional release activity has increased the workload on institutional parole offices as well as in the community.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 217.705 and Chapter 558 RSMo.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

NOTES:

FY08:

In FY08 the Division received funding for additional residential facilities beds but was unable to get contracts in place until later in the fiscal year, resulting in a lapse of Inmate Revolving Fund monies. The Department has had difficulty getting beds in some locations, even after multiple RFPs.

FY09:

In FY09 the lapse was a result of two unsuccessful efforts to contract for residential services in the Springfield area. The division requested the assistance of the Reentry Unit in order to develop possible vendors to bid on services in that area. It is the intent of Probation and Parole to contract for residential beds in Springfield in FY10. Once a contract is secured there will no ongoing lapse generated in this area.

In FY09 the Division supervised an average of 1,082 offenders per day with electronic monitoring equipment. This equipment monitors the offender's compliance with curfew restrictions placed on them by the supervising probation and parole officer. The daily offender fee for this program was eliminated in FY08, and the funding is now solely through the Inmate Revolving Fund, which is sustained primarily through Intervention Fee collections.

NOTES:

FY07:

There was a decrease in utilization rate due to shifting Board special condition practices leading to unexpended funds, though total expenditures increased.

FY08:

The larger than expected lapse is due to the fact that the agency has not yet fully converted the GPS pilot project to a standard field supervision option. The discussion was made to extend the pilot to gain additional experience in the use of this equipment. Once GPS becomes a standard supervision option, which will occur during FY09, the utilization will increase and the overall cost associated with Electronic Monitoring will move closer to the allocated target.

FY09:

The larger lapse was generated by under utilization. The division is currently re-bidding the services. Through the bid process it is anticipated that there will be a cost increase over the last contract. It is believed that utilization will increase once the new contract is awarded. With the expected cost increase and utilization expansion, the level of lapse will decrease in the coming year.

Department: Corrections
Program Name: Electronic Monitoring Program
Program is found in the following core budget(s): Electronic Monitoring Program

1. What does this program do?

This program assists with the reintegration of offenders in the community and provides additional intervention, sanctions and control for offenders who have been unresponsive or unsuccessful in traditional caseload supervision. The program contracts for equipment and support services to monitor offenders compliance with curfew restrictions placed on them by the supervising probation and parole officer. Until October 2007, offenders were required to pay \$5.00 per day to the Inmate Revolving Fund while assigned to this strategy, but after that point, ongoing monthly Intervention Fee payments have been used to help offset the costs of the program. Funding is provided solely by Inmate Revolving Funds receipts.

2. CORE DESCRIPTION

As an alternative to constructing additional prisons to meet increases in prisoner population growth, the Department of Corrections proposes to reduce the prisoner growth rate by working to insure that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The Department believes providing a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the State that contribute the most annual prison admissions and revocations is one critical step to reducing this growth rate. The Community Supervision Centers are a method to provide such short-term intervention in the community. In addition to the existing Community Release Centers in St. Louis and Kansas City, the Department has seven Community Supervision Centers to serve the other areas of the State that contribute significant numbers of annual prison admissions and revocations. One of the Community Supervision Centers is a 60 bed addition to the Kansas City Community Release Center dedicated to reducing probation revocations in that city. Each center includes an administrative area to accommodate the existing probation and parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for 30 offenders in need of structured residential supervision. Centers in St. Joseph and Farmington opened in December, 2005 and began receiving offenders for residential placement in early 2006. The Hannibal center opened in December, 2007, and the Kennett center opened in June, 2008. The Fulton, Poplar Bluff and Kansas City centers opened in FY09.

PROGRAM DESCRIPTION

Program Name: Community Supervision Centers						
Program is found in the following core budget(s): Community Supervision Centers

1. What does this program do?

The Department of Corrections proposes to reduce the prison admission rate by working to insure that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The Department believes providing a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the State that contribute the most annual prison admissions and revocations is one critical step to reducing this admission rate. The Community Supervision Centers are a method to provide such short-term intervention in the community. In addition to the existing Community Release Centers in St. Louis and Kansas City, the Department has 7 Community Supervision Centers to serve the other areas of the State that contribute significant numbers of annual prison admissions and revocations. One of the Community Supervision Centers is a 60 bed addition to the Kansas City Community Release Center dedicated to reducing probation revocations in that city. Ninety percent of the construction costs were paid with federal funding. Each center includes an administrative area to accommodate the existing probation and parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for 30 offenders in need of structured residential supervision. Centers in St. Joseph and Farmington opened in December, 2005 and began receiving offenders for residential placement in early 2006. The Hannibal center opened in December, 2007, and the Kennett center opened in June, 2008. The Fulton, Poplar Bluff and Kansas City centers opened in FY09.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 217.705 RSMo.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.
